AMITY UNIVERSITY – INDIA'S NO. 1 RANKED NOT-FOR-PROFIT PVT. UNIVERSITY

Amity University, the flagship institution of Amity Education Group, is India's no. 1 ranked not-for-profit private University with a strong focus on research and innovation. It has been recognised as 'India's Best Research University' and 'Best University for Placements' by the Indian Education Awards 2015 & 2016 respectively and was also ranked by QS among the top 200 Universities in Asia.

Amity has set a new standard of academic excellence in India by becoming Asia's only not-for-profit university to be awarded US Regional Accreditation by WASC Senior College and University Commission, USA – considered the Gold Standard of Accreditations globally

The Group since its inception, about 2 decades ago, has established 9 Universities and 25 schools with campuses across London, Singapore, Dubai, USA, Mauritius, China, Abu Dhabi, South Africa and Romania, besides India and is home to over 150,000 students pursuing world-class education from Prenursery to Ph.D.

The university is working towards impacting India's development and global image through education and research. Towards this end the Amity faculty have filed over 790 patents in the last 4 years– by far the highest by any Indian University. It is also conducting over 300 high-end research projects funded by organizations like DRDO, & CSIR. Unique initiatives like these have led to Amity being recognized as a Scientific & Industrial Research Organisation (SIRO) by Govt. of India.

Amity has also instituted an extensive scholarship programme, benefitting over 25,000 students so far, to ensure that true talent gets the fairest chance to rise and shine. Today, the Amity community of outstanding students has exceeded over 100,000 alumni worldwide, who are successfully pursuing their career in top organizations or have been selected for further studies by leading institutions such as Stanford, Columbia and California.

MESSAGE BY THE
FOUNDER PRESIDENT

My Dearest & Most Dynamic Alumni

"It's my dream and mission to see that India becomes a knowledge Super-Power by 2030". The development of any Nation largely depends on its youth. Only the youth, imbibed and nurtured with the perfect amalgamation of World Class Education, command on Behavioral Science and Values and Sanskars will be the ones, who have the ability to lead masses, move forward on the path of success and leave their footprints for others to follow.

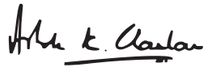

Today, Amity is known for producing graduates that are intelligent, innovative, and effective in their fields of career. Amity has embossed its name at almost every part of the world in the form of its Alumni. The uniqueness of Amity Alumni can be seen in every initiative they take. Whatever they do, they do it differently with an assurance to obtain preferred outcomes.

The fact that our alumni are working in the best companies across the world is a matter of immense pride for us. It is indeed a testament to our extremely talented faculty who inculcated the spirit of dedication, sincerity and loyalty in each and every Alumni of Amity. I am confident that the untiring efforts of our Alumni and their high powered spirit of innovation and implementation will take our great nation to greater heights.

Alumni play a very significant role in determining the future and continued development of his/her alma-mater of which they are the valued ambassadors. I am delighted to have you once again at Amity University Campus to cherish all those lovely moments which you have spent here. It is indeed an opportunity to your university as well to have more structured and effective association with you. There are many unrevealed avenues of learning and discussions which we look forward to deliberate and utilize the real time experiences of our Alumni.

I heartily welcome all Alumni of Amity University Uttar Pradesh, Noida, once again at Amity for Alumni Reunion 2017 along with their spouses and children and at the same time congratulate the organizers of this meet for taking this valuable step and bringing synergies with you once again.

My heartiest blessings and best wishes would always accompany you and your family.

Dr. Ashok K. Chauhan
Founder President, Ritnand Balved Education Foundation (RBEF)
(The Foundation of Amity Institutions and the sponsoring body of Amity Universities)

MESSAGE BY THE **CHANCELLOR,** AMITY UNIVERSITY

Amity in the Industry is regarded to produce only thorough professionals, the leaders, who possess an intrinsic characteristic to bring changes in the life of millions through the world class education, behavioral aspects and the ethics imbibed in them during their academic journey at Amity. Amity University has been a forerunner in recognizing the needs of the industry and integrating knowledge with professional inputs.

Amity University is the single largest education provider in India and is firmly focused in preparing the youth to face modern day challenges of today and help them to be a responsible citizen of the country. Amity's primary commitment is to find the true potential of our students and equip them for the future, by providing them with the necessary skills, knowledge, and values. We achieve this goal through our unrelenting efforts to enhance Quality in Education, Research, and Diversity in our campus. The curriculum at Amity University reflects this diversified educational approach, as does the intellectual capital of its faculty that is dedicated to fulfilling the above mission.

With more than 100,000 alumni living in every part of the world, Amity group has earned a reputation for excellence and leadership. We truly believe that while the Amitian experience begins on campus but is enjoyed for the rest of one's life. The Alumni Association plays a major role in building long lasting relationships and creating ***camaraderie*** amongst a global community.

Alumni Newsletter is the best way to stay connected with alma mater and re-establish bonding with the batch-mates. With this noble thought in mind, Amity University has come up with 'Amity Alumni Newsletter' to foster and strengthen the life long relationship between the alma mater and its alumni. I congratulate the entire Editorial Team for having made a significant impact within a short period of time.

Our Alumni are the perfect role model for existing students of Amity Universities. I am confident that the legacy earned by Alumni of Amity University will be cherished and enjoyed by your juniors over the years to come.

Wishing Good Luck!

Dr. Atul Chauhan
Chancellor
Amity University

MESSAGE BY THE **VICE CHANCELLOR,** AMITY UNIVERSITY UTTAR PRADESH

We at Amity University believe that education is an effective medium of social transformation. Widespread knowledge is Omnipresent, newer technologies, skills and avenues are continuously evolving & emerging, the horizons of professional activities are expanding and hence there is much more scope for the younger generations to uncap their talents and touch greater heights of achievements. There are many challenges in this emerging situation, imparting & grasping knowledge has become quite dynamic and challenging, we have to be ready and equipped with the required abilities and capacities to conquer these newer fields of knowledge and master newer techniques and skills. Achieving these goals will require a tremendous team effort, but can become near reality, if we encourage & foster Alumni Participation, involvement, and commitment. We are continuously striving to strengthen the bond between the University and our Alumni by maintaining and building upon the positive relationships we have with our seasoned Alumni & simultaneously, increasing the participation, involvement, and communication with our younger Alumni.

Since its inception, Amity University has been consistently attracting students from all parts of the country and abroad for its academic excellence. Today, Amity University is recognized in the society for outstanding performance of its constituent courses and policies that are aimed at overall development of the students. We feel proud that we founded such an excellent institute, which is shaping modern India.

The Inaugural edition of Amity Alumni Newsletter is a very important step in our goal to foster excellent relations with our Alumni. I congratulate the Alumni Editorial Team Members for taking this great initiative and coming up with the Inaugural edition of Amity Alumni Newsletters. I would like you to remember that success is not measured in monetary terms alone, but in the strength of your character and the deep-rooted foundation of ethics and values with which Amity has equipped you.

Be proud of Amity & make Amity proud of you

Dr. Balvinder Shukla
Vice Chancellor
Amity University Uttar Pradesh

MESSAGE FROM THE **ADVISOR** AMITY ALUMNI ASSOCIATION AMITY UNIVERSITY

It gives us immense pleasure to continue an active relationship with you. We at Amity are extremely confident that you are progressing well in your career and earning laurels for yourself as well as for your parents, guardians and Amity, your alma mater. You are in the league of 1,00,000 + successful Amity Alumni members working in various organizations in almost every part of the globe. We at Amity are delighted to experience the advancements of our Alumnus in the fields of their respective professions. With the untiring efforts of our Alumni, we are being recognized across the globe. Existing Students of Amity are enjoying the inheritance, which their Alumni have netted for them and for their Alma Mater.

Formal Alumni Meets are opportunities which enable Alumni to reunite with their friends and faculties, revitalize memories and share experiences of their past and present life. At the same time, it enables us to receive constant updates of our Alumni. With the Blessings of Dr. Ashok K. Chauhan, Founder President, RBEF, under the dynamic leadership of Dr. Atul Chauhan, Chancellor, Amity University and robust mentoring of Dr. Balvinder Shukla, Vice Chancellor, Amity University Noida is organizing Domain Alumni Meet(s) 2017 for the Alumni of Amity University Noida Campus in the month of March 2017. I am delighted to mention that during these Alumni Meet(s), we would be having release of Alumni Newsletter which would be detailing upon the activities and interest of our Alumni, their success stories and memories from the past. We look forward to receive inputs from each and every Alumnus of Amity in future for this Newsletter so that your juniors, faculties and the entire world can witness the progressions of our Alumni in the Industry.

We would look forward to remain associated with you, serve you and together we will make every effort in making this world a better place for our generations to come and enjoy and appreciate our efforts. I wish you good luck for all your future endeavors and pray that you achieve great success in your life ahead.

You are an integral part of AMITY fraternity, present achievements and future hopes.

Forever Yours

Prof. (Dr.) Ajay Rana
Advisor Amity Alumni Association, Amity University

ALUMNI **REUNION 2017**

During student life, you have had thousands of moments and emotions to share and relish with your friends and faculty members at the Amity University. You have spent the most significant years of your academic journey at Amity. To relive all those lovely moments, to meet your old buddies and faculties at Amity and to showcase the growth path your University has imprinted across the Globe, the University regularly takes initiatives to have its alumni back at the campus, but this time you will be wearing the most prestigious tag of Alumni.

With more than 100,000 alumni living across the world, the Amity Group has earned a reputation for excellence and leadership. We truly believe that while the Amitian experience begins on campus, it is enjoyed for the rest of one's life. The Alumni Association plays a major role in building long lasting relationships and creating a cadre of excellent professionals amongst a global community.

In today's competitive world, young professionals barely get time to reunite with their college mates to enjoy and celebrate. The world has got summed up within the boundaries of Social Media where updates about the personal and professional progressions are shared virtually. To go beyond and to bring further synergies amongst our Alumni and its Alma Mater, Amity University Uttar Pradesh, Noida is organizing an Alumni Reunion 2017 on 4, 11, 18 & 25 March 2017. The University has tried to cover all the essential aspects during the Reunion. Several activities such as open house, campus tour, cultural performances by your juniors, interaction with experts and leaders of your University, fun games and activities for family members etc., have been scheduled to make your visit rewarding and unforgettable.

We are extremely proud and happy with the achievements of our alumni and as a token of appreciation, we will be recognizing the hard work and significant contributions of some of the Alumni during the reunion by presenting the Amity Alumni Achievers' Awards.

We look forward to have continued and enriching association with our brand ambassadors!

ASET

Working in Motherson Techno Tools Limited, Noida and running a startup - DestinX Entertainment, he was lauded with the India's Top 100 Young Leaders Award.

Mr. Bhupendra Varshney
MCA, 2004-2007
ASCS

Awarded during International Leadership Award 2016 for Most Promising Software Testing Services and Training Institute in Mumbai.

Dr. Kamal Kant Sharma
M.Sc. Nanoscience
(2004- 2007)
AINT

Senior Researcher, NUS, Singapore

Research fellow: University of Strasbourg (UDS), Strasbourg, FRANCE;

Research fellow: Case Western Reserve University, Cleveland, Ohio, USA; Ph.D., (Biophysics): University of Strasbourg (UDS), Strasbourg, FRANCE

Mr. Sudeep Gupta
B.Sc (IT) (2004-2007)
AIIT

Mr. Sudeep Gupta has two ventures Café Buddy's Foods Pvt. Ltd (Café Buddy's Brand), MPI Foods Pvt. Ltd. (Mr. Pizza Brand). Cafe Buddy's Foods Private Limited has been awarded as the 'Fastest Growing Fast Food Retail Chain' by Chetan Bhagat. He has been awarded as the "Young Promising Entrepreneur" on the occasion of 12th National Workshop "Management Mantras for Business Excellence"

Mr. Rishabh Bhargawa
M.Tech Nanotecnology
(2008-2010)
AINT

Senior Executive: Cell Process Engg & Tech, SPoC for IPR at Tata Power Solar Systems Limited, Teaching & Research Associate, Monash University, Australia

WINNING MOMENTS

Mr. Sunny Jha
B.Sc (IT) (2007-2010)
AIIT
Author of Book Mastering XenApp

M. Kumar Gaurav Kapoor
BCA
AIIT

Has earned 16 national and International Software testing certifications which includes CSTE, ISTQB Advanced level, ISTQB Functional Tester, ISTQB Test Manager, ISTQB Technical Tester, HP QTP, HP QC, HP AIS, CSM, CAST, CSTP, IREB Requirement Engineering certification etc.

Mr Saurabh Tayal
MCA (2004-2007)
AIIT

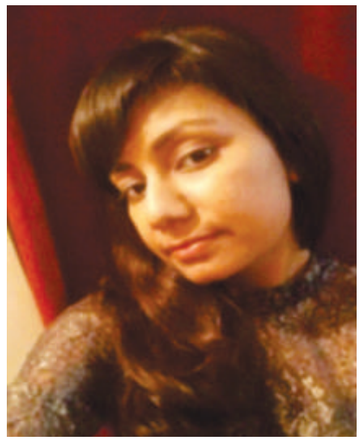

Nominated among 30 finalists for Business world Young Entrepreneur Awards, Honoured with the Red Herring 100 Asia Winners Award, Nominated as top 50 digital brands by The Economic Times

MrPiyush Gaba
B.Arch
ASAP
Batch 2009-14

Established AKAAR in 2014, successfully completed 14 projects that include Office interiors, Residences, Commercial (Salon & Scf) Restaurant & cafe

LIGHT IN DARKNESS

Ms. Ruchika Kumari
MCA
Amity Institute of Information Technology
Batch 2011-2014

Do not fear at night,

Moon is there for light.

When you move your eyes left or right,

You will find twinkling stars all over the sight.

Be like Moon and Star in your life.

No matter if the darkness of troubles comes, when you are right.

You will have all the power to win the fight.

Mr. Aakash Gupta
MCA
Amity Institute of Information Technology

Truth undiscovered
When i walk on the sides of the road alone..
I can see my shadows come along.
It was one such eveng that it struck my mind.
An answer to the mystery i wanted to find.
What is it that makes us face the dark.
And makes us gud enough to leave a mark.
Something angelic we do not see.
But still gets us a lot of peace.
It shows itself with a ray of hope.
And relieves us from the strands of rope.
It hides itself when the weather of life is good.
And brings in our life as much beauty as it could.
The holy spirit of life.
That i come to know as surprise.
Is none other than us own.
Which within us has always shone.
It comes as shadow for the world.
And tells us silently that you aren't a lonely bird.
Fight the moment to the best.
As it merely is a bitter test.
Live the moment as you have never lived it before.
And you'll stay ever happy, that i make you assure.

DASVIDANIYAN

Shubham Gupta
BA LLB (H)
Batch 2011-2016

Hasi ke wo pal, zindagi ka sath the jaise.

Khamoshi se he sahi magar, muskura dete the unki har baat pe.

Sath na chorh ne ka wada to tha, par shayad zindagi bhar tak ka irada na tha.

Yaad aayega isi qadar, ye college se zindagi ka bhi safar.

Jahan dost choothte tohgaye, par kuchh asin yadein de gaye.

Jahan pyar maa se bhi badhkar tha, aur papa ne to jaise kabhi daanta he na ho.

Jahan hasane se pehle rulane ki zor shor se koshish hoti thi.

Jahan duniya ko jaise jeet lene ki khwaish hoti thi.

Roz naye naye toofani ideas ko dimag mein lana, aur ladai mein sabse aage kood jana.

Guard ko gate par entry ke liye desperately karna, aur fest ke time entry karwane ke liye desperate hone.

Cultural activity ke bahane classes ko miss karna, aur wahin se bali par jaake role khana.

Teacher ke lecture ke waqt, sir jhukaye, doston ko mobile se text karna.

Shyam ko ghar aate he whatsap check karna,

Bolna ki ghar jaate he message kardio...acha nahi hoga warna

Pareshan ike waqt humse bhi zada pareshan

Aur khushi ke waqt, sab par meherban.

Wo din shayad kuch samay baad aayenge, par wo dost, wo teachers,wo sab kuch... hume bohot yaad aayenge..

Kuch aisi he thi humari Amity se judi kahaniyan

Na jaane kab in saalon mein humne keh diya...dasvidaniyan!

भारत निर्माण

Mr. Sarthak Kalra
MCA
Amity Institute of Information Technology
Batch 2009-2012

अब वह ज़माना बीत गया ,
अब नया ज़मानाआया है |
भारत के चोटिल जीवन में ,
एक नया अफसाना लाया है |
वो जात पात के फंदे ,
अब भारत माँ को न बांधेंगे |
यदि भारत माँ के सब बच्चे ,
खुद को हिन्दुस्तानी मानेंगे |
वो अकबर बाबर बीत गये ,
वो बीत गये अंग्रेजी राज |
वो बीत गया देहेकता पंजाब ,
वो बीत गये दो वर्ल्डवॉर |
जाने दो अब उन बातों को ,
उन बातों में क्या रखा है |
नए लक्ष्य नयी सम्भावनाये हैं ,
सीखने को नयी कलाए हैं |
हाथ मिलाओ विज्ञानं सेआज ,
इस मिटटी को आबाद करो |
संकीर्ण सोच का त्याग करो ,
खोलो आज विचारों को |
न कृष्ण की राम की ,
न बाइबिल न कुरान की ,
आज आवश्यकता है भारत को ,
बस सच्चे इंसान की |
आज फिर माँ ने पुकारा है ,
अपने बच्चों को ललकारा है ,
देश भक्तों के बलिदानों को ,
आज फिर से पुकारा है |
यह पुकार आज लगन की है ,
है मेहनत और सम्मान की ,
कर्म करो भारत के लिए तुम ,
रोटी खाओ सम्मान की |
जागो भारत के लोगों ,
उठाओ तलवारें ज्ञान की |
काट दो जंजीरें जंक भरी वो ,
संकीर्ण सोच व अज्ञान की |

PROUD TO BE AN AMITIAN

When people say that whatever happens happens for a reason, they are absolutely right and I am a firm believer of this fact. I started my journey at AITEM, Amity University in the year 2009 and this start marked a beginning of a journey which I had never dreamt of. A girl who had always been within the four walls of army cantt. and never saw the real world, was now at a stage where she felt like a small fish in an ocean. But little did I know that this ocean was the platform to emerge into the bigger picture.

Amity Institute of Telecom Engineering and Management has been more than just an educational institution. It is a place which provides students an opportunity to think big and new. AITEM can be rightly placed as an institution which broadens your vision and helps create a new and better perspective about life which in turn helps one become ambitious and emerge as confident decision makers in the dynamic industry and society as a whole.

AITEM has helped me to mold myself according to the needs of the industry and moreover has enabled a kickstart to my list of achievements both within Amity and outside.

The opportunities which I received were immense that helped me to discover the dormant side of my personality and helped build on my strengths. Under the valuable guidance of the eminent faculty members of AITEM, I have been able to publish a research paper on“Comparative Study of Feeding Mechanism Used In Micro-strip Patch Antenna" in the International Journal of Emerging Technologies in Computational and Applied Sciences (IJETCAS). At AITEM, I was recognized for my speaking abilities and was given an opportunity to anchor various telecom events. I had the opportunity to build on my skills and finally emerge as the official anchor for all events at AITEM and also for Amity University. I also led the sponsorship committee for fund raising events at university level and served as core committee member for launching and execution of the Amity Youth Fest. My inclination towards events witnessed a huge support from all the faculties and this gave me the opportunity to explore my interest and learn much more than the textual knowledge. I actively participated in sports activities throughout my tenure at Amity University and was selected as the Sports Captain of AITEM for year 2012-13. As the captain, I was successful in securing accolades in Air rifle shooting, Squash & Kabbadi. All of these achievements gave me an opportunity to be nominated for the esteemed Ritnand Balved Education Foundation award.

Today, I proudly announce to the world at large that I have been a proud Amitian and owe all my successes to Amity. Post my tenure at Amity, I got placed on campus at HCL. However, I chose to continue my education and went to London, UK for an MBA – International Business at University of Greenwich. It was surprising and rather a proud moment to learn that people recognize Amity University not just in India but abroad as well.

For the past 3 years, I have been working as Manager, Operations at The Indus Entrepreneurs (TiE) Delhi-NCR, a global organization to foster entrepreneurship and working closely with startups, senior entrepreneurs, policy makers, investors, educational Institutions (Including Amity University), embassies and Government officials. I have been able to carve out a career for myself as a freelance Anchor as well and have successful hosted numerous events for Government and private sector organization. I have had the opportunity to come back to Amity as speaker for events.

Joining AITEM, Amity University has been one of the best decisions of my life and I am proud to call myself an Amitian. And as our founder president Mr. Ashok K Chauhan always says, once an Amitian always an Amitian.

CHEERS TO AMITY

Dear teacher,

You impart knowledge and

Guidance so full of love that it moulds

Like the gentle hands of a potter on shapeless day

All the effort you put in to prepare for our lectures

To study more than even we do

Is nothing short of inspiring

You have constantly been driving us to do good

Never failing to be there when we need your help

Your compassion and motivation

Prods us on to keep improving

You are the sun in a student's life

The guiding star through the night

I feel most fortunate

To have a teacher like you.

Ms Tarika Banerjee

CHEERS TO AMITY

Speaking of Amity, the first thought which comes to everyone's mind is "it's a university only with name and fame but there is no studies, no future. Only rich kids go there for studies". But please don't be stereotyped. Come to AITEM and experience what study is at Amity. A strict time table, good teachers, one-on-one attention by teachers, lot of opportunities, and a lot are waiting for you at AITEM. As students, you are given opportunities to organize various events, which help you build and enhance your leadership skills and time management skills at the same time. Believe me, faculty at the AITEM is among the best ones in whole Amity University. Environment at AITEM is superb and cool. At the same time, CGPA system might heat it up a bit. Also, having back to back final exams also might tense you up a bit but at the same time helps you in dealing with pressure and stress. It allows you to become a better person and more importantly a better corporate personnel.

Amity gives you a lot of opportunities, be it academics, extra-curricular, placements, internship, etc. It helps you explore the real potential in you. Their scholarship award system will always motivate you to work more hard and hard.

I am glad to be a part of Amity University and a proud recipient of Gold Medal in academics, Shri Baljit Shastri Award, Merit Scholarship award and Placement coordination award. Success is nothing but the result of continuous Efforts, Hard work and Perseverance. This is what Amity students get to learn and imbibe on their journey to Success.

All your efforts in Amity, be it in extra-curricular, academics, sports, etc. will always be recognized and amity will always keep on giving you more and more opportunities to explore and find your true talent & potential.

It's pretty much true – Once an Amitian, always an Amitian. Also, I would take this opportunity to thank all the faculty members and placement cell. Thank you Amity University.

Nisha Chugh
MBA -Telecom Management
Amity Institute of Telecom Engineering and Management
Batch 2014

I pursued my MBA in Telecom Management and Marketing from AITTM in 2010- 12 and those two years were certainly one of the best days of my life. The course helped me understand the technical and managerial aspects attached to the technology and the telecommunication space. Throughout the years, I got a chance to be part of a respected brand guided by distinguished faculty members and got exposed to a number of events apart from studies including organizing placements in collaboration with the training and placement cells, hosting industry conferences, seminars, guest lectures and cultural events. Five years down the line, I feel that those experiences have definitely helped me develop as a professional and had helped me gain insights on the industry. I also feel proud to have met a diverse set of friends from cross cultural backgrounds during those two years who are all doing well in their respective spheres. The institute gave me my first job when I got placed with CRISIL Global Research and Analytics and an exposure to the consulting industry. Presently, I am working as an Associate Consultant with KPMG Global services and I am based out of Bangalore

AMITY KI KAHANIYAN

DIRECT DIL SE

My journey at Amity was enriching where I learnt a lot from my teachers. They taught us the importance of both hard work and smart work to obtain desired results. Especially, I would like to thank Dr. Ajay Rana Sir and Anjani Bhatnagar Sir for their continuous efforts and guidance in making Amity such a wonderful place for us. My association with my Gurus and their guidance still helps me in taking professional/personal decisions.

In short Amity is a place full of opportunities and is the perfect platform to take-off your professional journey.

Akshat Garg
MCA
Batch 2009

Four years, and it seems like just yesterday, when I entered Amity with all the expectations in my head. It will be unfair if I say these hopes and dreams were not fulfilled.

Academically, faculties take you through the curriculum in the most effective way. They don't spoon feed but they never abandon a student either. Every step of my way, I was mentored with immense involvement and the experience they carried along.

However, what I truly cherish and what college has really given me, is an identity. A self-aware self. It brought me to a stand in four years to realize what I truly believe in, what I truly work for and where I truly see myself. Beyond all the challenges and hardships, I could stand strong for my faith, my belief, and my goal.

There is so much to recall and feel nostalgic about. My HOI, Prof. (Dr.) Ajay Rana, has been a pillar of strength, and continues to be so even after the college is long over. He guided me like a mentor, guru and like a father figure. Be it my research, my anchoring stints, my internships, there isn't one thing that I don't owe to him. He gave me the chance to write for Italian Trade Embassy and what more could I have asked for. I was awarded a two weeks trip to Italy for that paper. Representing your nation at the global platform truly makes you believe that you are meant to achieve better and bigger things in life and this, yet again, I owe to Rana sir.

Then came the changing point of my life. The scholarship I received from Prudential Foundation and a semester long internship in Washington DC. Sitting miles away from home and college, I can't thank my HOD, Prof. (Dr.) Vinod Shokeen and Rana Sir enough for the kind of faith they instilled in me and the kind of support they extended. I could fall back on them where I was in self-doubt or was vary of how things were

Deeksha Machhral
B.Tech ECE, Batch 2016

rolling out. But nothing but the best they could do, was their response. It will only be fair to say I wouldn't have been able to achieve so much had I not been pushed by these amazing mentors in my life.

Beyond this, when I look back at my memories in college, I can't forget my anchoring evenings in AYF, my parade lead in Sangathan, sleepless nights coordinating the placements, playing cricket with the team and Farhat sir, my never ending hostel nights, last minute studies for exams, pleading my lovely teachers for attendance and getting a wonderful time with my classmates. I wish I could relive all of this again!

Closing, I would just say, Amity has given me all that I hoped for. A successful career to pursue, a confidence that is never fading away and a bag full of memories to cherish. I hope I keep coming back and keep contributing to my alma mater whichever way possible.

AMITY KI KAHANIYAN

DIRECT DIL SE

Indraneel Dutta
B.Tech MAE,
Batch 2014

My four years of engineering at Amity amazing and fruitful. Amity provided me the platform to hone and nurture different facets of my personality that have made me a more competitive and balanced individual. The rigorous curriculum has lent me a sound technical foundation in manufacturing science and handling manufacturing projects at Bosch. I would like to credit much of my success to the distinguished faculty members their constant encouragement and close participation in my academic development. Further, the courses on Lean Management, Behavioral Science and Foreign Language have helped me develop an invaluable dimension to my thought process.

At Amity, I also had the chance to co-ordinate, volunteer and participate in technical events and conferences of international repute that were organized and competed with great enthusiasm. Above all, I had the opportunity to spend four crucial years of my life with such talented students who are going places and performing exceedingly well in their fields. I thank the entire family of Amity for playing an instrumental part in shaping my career. I really Cherish my four years of Stay at Amity and wish the days to come back again.

Amity is a well renowned University, where a lot of youth dream of studying. One of my life changing decisions was Joining Amity University in 2012 for my B.Tech degree. It has offered me ample opportunities to explore myself not only in academics but in various other fields (like music, organising events etc.) as well. Faculties in Amity have always been supportive. Whenever they see some potential in a student, they not only work to improve the student academically but as a complete individual who is ready to face the corporate world when they move out from Amity after their graduation. I have personally experienced all these things, I was a part of various events during my course of 4 years which enhanced my personality and made whatever I am today. I could never imagine myself working for EY in 2012, but Amity made sure that I was ready for all my future opportunities. I would like to thank Dr. Vinod Shokeen (HOD-ECE (ASE)) and all faculty members of Amity School of Engineering and members of ATPC for always being supportive and guiding me though the process. I would also like to give special thanks to Dr. Ajay Rana (Advisor and Director- Amity Alumni Association and ATPC) for being a ray of hope and encouraging students to do their best.

AMITY KI KAHANIYAN

DIRECT DIL SE

Once and Amitian Always an Amitian

From an Amitian named Raunak Singh. It is still all seems like a dream starting from the very first day of the orientation to the very last for us as a student which was the convocation.

I got the golden opportunity to be a part of the B.Tech program offered by Amity and I say it with a lot of pride and a lot of proofs that it is the best decision that I made for myself.

Amity apart from being a big brand name is a world within and it has so much to offer that almost none of the Universities in India offer.

To begin with the first year, it seems like a hectic schedule to every student but we only realize it by the end of the year that this hectic schedule is the reason we learn to work hard, manage our time and multi task while learning new chapters of Life and Engineering.

By the end of second and the third year we grew, from school going students to college going leaders.

From PCM subject learners to practical concepts and management believers and within a blink of an eye we were on the doorstep of the final year.

Final year was like a big result of whatever we have learnt and absorbed in the past 3 years and believe me, it was way over any expectation that one could have.

Our HOD (Dr. Vinod Shokeen) were really like an umbrella to us which saved us from all the trouble rains and kept us safe through the glowing afternoons and taught and nurtured us throughout our 4 years.

In the four years that I was away from my home, I never really felt that I was, It was because of the expert guidance and homely environment provided by our mentors, faculties and almost everyone from the Amity and also by the family out of family which we call friends, who are our project partners room partners, fun partners, life partners and to an extent crime partners as well and from the bottom of my heart I really want to thank them all for giving me everything that they gave.

Today, I work in Amazon but whenever I introduce myself to anyone I prefer saying proudly that I am an Amitian Raunak Singh rather than any other thing because it was not just a college or degree for me that Amity provided, but it was the complete personality who I am today for which I am thankful only and only to Amity University.

Raunak Singh
B.Tech ECE,

Aayushi Kaushik
B.Sc. Forensic Science
Batch 2016

3 years ago the decision of taking admission in Amity University is cherished now. Being am Amitian in a crowd of hundred is a badge of pride on shoulder. Choosing the career in forensics was undoubtedly a good decision. Starting journey as a total amateur and completing with professionalism.

To be honest the kind of faculty support we get here in Amity Institute of Forensic Science can never be seen in any other institute. AIFS is a perfect blend of love, care, education, discipline, professional learning.

When today girls are lacking behind because of male domination in other institutions there the girls in amity are flying high with a total support from colleagues as well as administration.

I shall be failing in my duty if do not mention about the protective environment inside the campus. The facilities in the campus, the health and hygienic environment. I shall be lifelong cherishing these 3 years spent in Amity University as it made me confident, independent and a mature personality.

I shall be thankful to Amity Institute of Forensic Science and Amity University for holding my head high.

चल ओ रे मांझी तू चल ।

अपनी राहों को बनाके एक कश्ती हर पल
न देके हवाला की क्या होगा यहाँ कल
कुछ अधूरी ख्वाईशो मे भर और बल
कभी उन्हें अपना बना, उनके रंगों मे ढल
युही हर मोड़ हर शहर हर डगर
मुसलसल कर कुछ तू यु पहल
चल ओ रे मांझी तू चल ।
गर जी चाहे कभी
तो फलक पे भी अपना नाम कर
गर करनी पड़े तुझे
एक ये कायनात
ये जल ये थल, तो कर
चल ओ रे मांझी तू चल ।
जीने को ज़िन्दगी अपनी शर्तों पे
हर महतबा सिर्फ दिल की सुन तू गल
फिर भले ही मिले कितनी ही आँधियाँ
कितने ही तूफ़ान या हो जज़्बातों की हलचल
ना डर..
खुद के सजदे में ही पायेगा तू उसका भी हल
और आज फिर उस कोशिश की कर एकबार तू
पहल
चल ओ रे मांझी तू चल ।

Rachit Arora
Department-Aerospace Engineering
Batch 2010-2014

The time I spent in Amity University was truly great. Especially the great faculty and the friendly and positive campus environment. It was also wonderful that the Placement Department were with us at all times for getting placements and for future guidance. Amity has made immense efforts to provide students with all the facilities and opportunities, be it the Youth fest, sports, academics, counselling, placement and much more. The days spent at Amity were truly the golden days of my life.

Tushar Vyas
Ex- Sports Captain
Amity Institute of Aerospace Engineering
Batch 2009-10, 2010-11

My four year at Amity University have undoubtedly been the best years of my life. Life at Amity has been a truly breath taking experience. Amity has completely transformed my personality and helped my in every way to fulfill my dreams. The course curriculum at Amity is exceptionally well planned and the array of extra-curricular activities is everything that a student can dream off.

Ankur Vats
Assistant Professor
Amity Institute of Aerospace Engineering
Batch 2008-2012

For me, life at Amity University has been very enriching. The environment not only helped me to imbibe world-class knowledge but also in developing my overall personality and fuelling my confidence. Amity University has achieved excellence in imparting high quality education with the main focus on research, and on inculcating competitive abilities in students. This approach of Amity has helped me immensely to holistically grow in all aspects of my personality. My sincere thanks to all the faculty members, mentors and everyone else in the Amity family for their support and positivity. All of them have played a very crucial role in shaping me and have emphatically proved me right in selecting Amity over other colleges.

Saloni Shrivastav
B.Sc.
Amity School of Design
Batch 2010-13

From the very beginning, even before I joined amity, I had been in touch with Ms. Shalini Sharma, our special Program Coordinator. I left no opportunity to call her and bug her with my queries, and she very kindly addressed each and every question. And the best part is that till today, I know that we share a special bond because of which I can still call her, knowing that she will be there for me!

ASD has an amazing team of educators, like our dear Ms. Aprajita Jaisingh, Tulika mam, Archana mam, Madhur sir, Nisha mam, Deepesh sir and Sushma mam. All of them have helped us to not only learn but intrinsically understand our field of study. They have in fact guided us till the very beginning of our careers, and still stand strong as a support system, which I will always treasure.

Kumar Abhishek
BCA
Amity Institute of Information Technology
Batch 2010

AIIT as an educational institute has done a commendable job in providing me with the necessary guidance, opportunity and mentoring to shape my personality and jump-start my professional career, right after completing my BCA Graduate Degree. Even after 5 years into my Profession, I seek mentoring from my Gurus at AIIT.

Saurav Arora
MCA
Amity Institute of Information Technology
Batch 2005

I am very happy with the education I received at AIIT. I found that I was able to step straight into a very fast paced and demanding career as a Technical Analyst with an excellent entry level skill set. I am very proud to be an alumnus of Amity Institute of Information Technology.

ALUMNI SPEAK

Gitika Bhatia
B.Tech ECE + MBA
Batch 2011-2016

I am an engineer and a management student, and my journey at Amity University has instilled in me a deep appreciation of the freedom and the importance of the spent in college. I have enjoyed being active in both academics and extra-curricular activities. Amity gave me a platform for honing my leadership, personal and academic skills for success.

I am grateful to the ECE Department for their constant support and encouragement throughout my session, be it in academics or during placements. I would also like to extend my gratitude to Amity for my placement in the Trident Group (Package: 21 LPA).

Saniya Sahdev
B.Tech-Computer Science & Engineering
Batch 2012-2016

I am thankful to Amity University, Noida for giving me a platform to continue my research work during my M. Tech (2013-2015, VLSI). I have also completed my summer internship at IIT Delhi as a research fellow in 2014, and completed my M. Tech dissertation in the Indian Statistical Institute, Kolkata in 2015. My M. Tech dissertation was filed as a patent on 5th June, 2015 and won the IEEE Innovation Award, and was among the 12 finalists from across India for my patent from IEEE, Kolkata Section. I have also been nominated for the Engineering Excellence Award from IEEE. Furthermore, I have got admission into the PhD programme in Stanford University and will be joining it in July 2016 in the Department of Electrical Engineering.

Kshitij Bantupalli
B.Tech-Computer Science & Engineering
Batch 2012-2016)

Always focussed on providing holistic education to every student, Amity University has given me the opportunity of a Study Abroad Programme (SAP) at the prestigious University of Florida, USA. The collaboration was worked out as a result of the vision and relentless efforts of our HOD-Computer Science & Engineering, Dr. Abhay Bansal. I am confident that the CISE (Computer Science and Information Engineering) Senior Certificate Program will immensely improve my abilities and skillsets, besides providing me global experience, and a platform for overall personality development, networking and enhancing my career in the field of Computer Science.

Dhrubha Ghosh
M.Tech – VLSI
Batch 2013-2015

Amity is the only place where one you get so much global exposure! I have really enjoyed my days at Amity, where incredible opportunities are presented to almost every student. I'm really thankful to Amity and my teachers, especially Prof. (Dr.) Abhay Bansal, for giving me the opportunity to expand my horizons and study at the University of Florida in the USA. I was looking out for just such an opportunity, and Amity presented it to me. Thank you Amity, for guiding me through.

Saim Ahmad
Interior Designer
B. Sc.
Batch 2005-08

I feel proud to have graduated from Amity University in the year 2008. As an Amity School of Design alumnus, I deeply value the time spent there and am grateful for the skills and opportunities, that I got there. ASD gave me the torch that guided me on my way towards success and achieving my goals. I really feel blessed to have had the opportunity to study in Amity University. At present, I am successfully designing for the domestic and international markets, and most of the credit goes to the fabulous, highly skilled and experienced faculty at ASD.

Anmol Wahi
B. Sc.
Amity School of Design
Batch 2013-16

Little did I know, on my first day at Amity, what a roller coaster experience awaited me. From casual friendships to forming life long bonds, from arguments to fun outings, from sadness to happiness and uncountable other unforgettable memories, Amity gave me everything. It was quite a journey, making me more independent, confident, hardworking and responsible. Amity made me understand myself better. I want to say a big thank you to the faculty, my college and all the many people I met there.

ALUMNI SPEAK

Mr. Vishal Choudhry
Social Activist, Advocate, Dehli High Court, Managing Director, SadhnaIndustries, Delhi.
Batch 2011-2013

With the knowledgeable professors, amazing campus and friendly staff, life in Amity Law School, Noida was like being a part of a family. This made a huge difference to my experience in pursuing the BA LLB Law Program. The highlight of the program was having the opportunity to meet people from all over the world, learning about different cultures and making good friends. This was hands down, one of the best decisions of my life!

Sweta Chaudhary
M.Sc. Applied Physics
AIAS
Batch 2014-16)

At Amity I received an enriching all round education that has made Applied Physics really come alive for me. I have transformed into a balanced and well-groomed professional, equipped to excel in academics as well as in the practical real-world. Amity has enhanced my understanding of the corporate culture and requirements, and all that I gained there will hold me in good stead for years to come.

Jasmeet Kaur
M.Sc. Applied Physics
Amity Institute of Applied Science
Batch 2014-2016

It was a pleasure studying in Amity. Amity allows students to develop their full potential by providing world class facilities. The professors here are supportive and committed to their profession. I feel great pride to be a part of Amity University.

Disha Narula
M.Sc. Applied Physics
Amity Institute of Applied Science
Batch 2014-2016

Life at Amity is not just about learning about your academic programme, it is also about gaining practical hands-on-experience. Amity provides unique exposure to the industry and real world work scenarios. It polishes our communication and hospitality skills, and also provides the perfect platform to showcase our talents. The best part was receiving a merit scholarship, which was very motivating and inspires students to do even better.

Kamanasish
M.Sc. Applied Physics
Amity Institute of Applied Science
Batch 2014-2016

My two years at Amity University doing an M.Sc in Applied Physics was a fantastic experience. The faculty at Amity is very supportive and always open to constructive suggestions and ideas for making changes. Although the rules and regulations are very strict, at Amity there is always room for genuine and positive scientific endeavour. I am especially convinced that the ease with which I was able to implement changes and achieve my goals (such as signing an MOU with RIKEN, Japan, for my scientific tour) would not have been possible in any other top-notch University in the country.

Ritika Chhabra
M.Sc. Applied Physics
Amity Institute of Applied Science
Batch 2014-2016

Amity has given me the unique opportunity to explore the real corporate world through seminars, conferences and guest lectures. It has been a great learning experience for me to have been part of an institution that along with providing world class education also helps in your holistic development and industry engagement. I am proud to be a part of the Amity family.

Engineering & Management
Batch 2011

Amity has shaped me in more ways than one. I was a 100% scholarship holder and gold medallist, and I was selected for the Indian Navy during the 8th semester as a part of the University Entry Scheme. Today I am a Lieutenant Commander in the Indian Navy, and as a logistics officer my primary role is to ensure smooth supply to the ships and submarines to ensure their operational capabilities. I have led the Indian Navy Contingent during the Republic Day Parade 2014 and the Naari Shakti All Women Naval Contingent in the year 2015 on Rajpath. As a Sub-Lieutenant, I was the youngest officer to be a part of Beating Retreat and hoisted the flag at Vijay Chowk in 2013. I also led the International City Parade during International Fleet Review 2016 which was held at Visakhapatnam where many other countries had participated. I really value my time in Amity University.

Mr. Kumar Kishore Kalita
MBA Tech (TM)
Amity Institute of Telecom
Engineering & Management
Batch 2010 - 2012

Today I am working with Nikon Corporation in Guwahati, as a Business Manager. I have been recognised with many awards during my over 5 Years with HCL Infosystems Ltd, Bajaj Electricals & Nikon India for my PAN India Revenue Contribution & Retail Activity. Thanks to my time at Amity University, I have been able to move ahead rapidly in my career.

Prashant Bansal
MBA - Telecom Marketing
Amity Institute of Telecom
Engineering & Management
Batch 2007-09

For me Amity is all about creating, educating, innovating, sharing and capitalizing. I feel that Amity as an institution has been able to bring together technology, industry, research and a start-up culture. It was thanks to my learning and training at Amity that I was able to imbibe extensive thought leadership qualities, which has helped me to emerge as a thought leader and an excellent sales person who has represented my company at various locations. I am proud to say that the two years I spent at Amity was much more than just academics, and taught me a great deal about succeeding in real life. Currently I am working as a Director of Sales in Aeris communications India. Aeris is a US based MVNO focused only on M2M and IoT platform and solutions. Prior to this I have worked with Tech Mahindra India, Europe and Africa, in various sales roles.

& Planning
Batch 2009-14

I am thankful to all my teachers and my Dean at the Amity School Architecture & Planning (ASAP) whose support was as great as what my parents would have given me. I had a great time during my wonderful stint at Amity, and I feel that taking admission in ASAP was the perfect decision for me. ASAP provides an excellent learning platform, and Amity University has helped me to develop a positive attitude towards my life & strengthened my decision-making abilities in all aspects of my career.

ALUMNI SPEAK

Surabhi Shiv Kumar
B.Arch
Amity Institute of Architecture & Planning
Batch 2009-14

Not only did I have a lot of fun in ASAP and learn a lot of interesting things, I also gained more insights and learning from my class than I could have imagined. Thanks to the daily discussions we had about our designs, I learned how to continuously analyze each design in the context of what we had learned, even before seeing the big picture. This is an invaluable skill that will stay with me for life. My time at Amity helped me in other areas too such as public speaking, which was never one of my strengths. Again, thanks to the variety and frequency of speaking activities such as presentations and design juries, I have more confidence in my abilities now.

Bhanu Verma
B.Arch
Amity Institute of Architecture & Planning
Batch 2009-14

I am going to cherish the five years I spent at Amity University throughout my life. The architectural studio classes, amazingly supportive faculty, best-in-class infrastructure and the fun filled hostel life, all together helped me immensely in becoming a better person both personally and professionally. I made some lifelong friendships and learnt some important lessons both in academic as well as personal front. I consider myself really lucky to be a part of this great institute.

Saksham Gupta
B.Arch
Amity Institute of Architecture & Planning
Batch 2009-14

It has been 3 years since I graduated from Amity, but it is those five years which I spent in this college that have been the most memorable in my life, and which I will cherish forever. Amity gave me the best of education, best of friends and the best of fun. It gives you a platform from where you can step into the world with full confidence. I would say that the guidance and support I received from my mentors was beyond comparison, and that is what has helped every student in bringing out their best abilities. Studying at Amity University, provided us with a lot of exposure in understanding diverse aspects, which I believe has helped each one of us in attaining our goals.

Kaninika Dey Sarkar
B.Arch
Amity Institute of Architecture & Planning
Batch 2009-14

I am thankful and appreciative of the invaluable experience I gained during my time in ASAP as a student. After going through those great 5 Years I am well equipped with the discipline and knowledge to excel, and can confidently pass on this knowledge to my students.

Mr. Samath Jain
M.Tech Nanotecnology (Integrated)
Amity Institute of Nanotechnology
Batch 2011

I learnt my ABCs of nanoscience and nanotechnology from the Amity Institute of Nanotechnology. Today I endeavour to contribute towards the development of the community to the best of my abilities. I also endeavour to learn and understand how nature works and what lies behind everything, so that I can try and make a positive impact in the real world.

Md. Naushad Ali
M.Tech - Nanotechnology
Amity Institute of Nanotechnology
Batch 2008

My entire gamut of nanoscience and nanotechnology knowledge was garnered at Amity. It was Amity that I learnt many skills that hold me in good stead to this day. I started by demonstrating the ability to lead and provide guidance on multiple topics especially in the techno-commercial front. Thanks to my holistic nurturing today, I am adept at all levels from idea inception, optimization, technology screening, and investment plans to commercialization across diverse specialised fields.

ALUMNI SPEAK

Dr. Prem Kumar Kandaswamy
M.Tech (Nanotechnology)
Amity Institute of Nanotechnology
Batch 2006

When I had joined AINT, it was just the second batch of M.Tech in Nanotechnology. At that time I was not very sure about it as Amity was the only University in the country offering that particular course. Today, I feel great pride that I took that important decision to join AINT. Today, I am exploring the cutting edge in my field, and am studying about how I can have less impact on our environment and also save on energy bills, by reducing power consumption through the use of energy efficient technologies. I am in fact, working on GaN, and trying to develop technologies like LEDs and Power semiconductors for paving the way for a revolution in energy efficiency.

Shreya Kumar
B.Arch
Amity Institute of Architecture & Planning
Batch 2011-2016

Amity University has provided me a platform to realize my potential & to make the best use of it. One can cram from books but originally it is always the faculty, industry interface and surrounding environment that only can transform a student into a professional, which I was fortunate enough to get in here and was able to secure the job that I always desired. All of my professors and faculties were outstanding & gave me the best guidance possible. I am overwhelmed by being an Alumni of Amity University for whatever & wherever I am today. I wish the institution the very best.

Mr. Rishabh Bhargawa
M.Tech (Nanotechnology)
Amity Institute of Nanotechnology
Batch 2010

I joined the Integrated M.Tech Program (Nanotechnology) and whatever I learn during my years at Amity has transformed me into an expert in the field of Nanotechnology. Having done my Masters in Engineering in Nanotechnology from Amity University, I followed it up with a second Masters in Engineering in Materials Engineering from Monash University, Australia. Having researched extensively in third generation photovoltaics, I have designed a novel architecture of Dye Sensitized Solar Cell Modules with high fill ratios and developed smart electrolytes. I am currently working with the TATA Group, as a part of the R&D Division handling Solar Cell Technology and developing and implementing innovative process techniques in solar cell manufacturing.

Dr. Tushar Kumeria
M.Tech (Nanotechnology)
Amity Institute of Nanotechnology
Batch 2011

My foundation at Amity has helped me achieve many goals in my career. My major contributions have been in the field of optical sensing, drug release and delivery mainly for Chemotherapeutics. The field of Chemotherapeutics, is in need of advancements as the side effects can be chronic. I believe that my research output will lead to major advancement in my field of specialisation.

Poonam Dagar
M.Sc. (Applied Chemistry)
Amity Institute of Applied Science
Batch 2014-16

The best thing I liked about Amity is something that you get only in a few handpicked colleges of the country – it is the holistic over-all development of your personality. Once you have been in Amity, you get equipped to excel in any work environment and any situation, as at Amity we are extremely capable hands that bring out all of our qualities and hones them. I have had the most memorable moments of my life at Amity, and have truly lived my life only at Amity.

Praveen Mishra
M.Sc. (Industrial Chemistry)
Amity Institute of Applied Science
Batch 2009-10

Amity University is not just about an educational degree. It is more than that. It's about building a new you and provides a great opportunity for students to broaden their knowledge beyond the field of study. Its international multicultural environment offers a fresh perspective to your future and imparts the desire to achieve more. The diversity of cultures in amity makes the place interesting, exciting and vibrant. My duration in Amity is full of wonderful memories with friends and mentors. It's a part of my life which I always cherish.

ALUMNI SPEAK

Chandni Sharma
M.Sc. (Applied Chemistry)
Amity Institute of Applied Science
Batch 2010-12

My time at Amity was a playful mix of fun and challenges. My two years at Amity are filled with memories that I will cherish and value forever. Every experience, be it our classes, projects or extra curricular engagements, came with remarkable life lessons and that I could only have gained at an institution like Amity. I can't thank my teachers enough for being the warm mentors they've always been.

Shivani Sikka
M.Sc. (Applied Chemistry)
Amity Institute of Applied Science
Batch 2014-2016

I remember my college days as strenuous and daunting with all the assignments and deadlines to meet, but now in retrospect I can see how all that was worth the effort I put in. It helped me enhance my skills and widen my knowledge base, which will continue to help me in my future endeavours as a professional. I was lucky to have such a qualified and cooperative faculty throughout my course which catered to all my needs and cleared all my doubts. Amity University provides its students with an extra edge through its personality development sessions and industry exposure, which made me confident enough to deal with real-life problems and convey my ideas across the room with ease.

Ankita Chhabra
M.Sc. Applied Mathematics
Amity Institute of Applied Science
Batch 2014-2016

It was Amity that gained invaluable knowledge and skills that turned me from shy person to a confident career woman. Amity has given me much more than academic skills and knowledge. I cherish the wonderful memories I have in Amity with my many friends. I am deeply thankful to my teachers who have guided me through the ups and downs in my life. Amity has equipped me with knowledge and skills to compete with the best and steadfastly work towards achieving my dream of becoming a lecturer.
