Describe your career journey and your current role.

"I am a Marketing professional with a solid experience of 20+ years working with some of the most incredibly talented teams and brands. During this period, I have built and expanded multi-million-dollar businesses for leading global and Indian brands such as J Walter Thompson, Honda Motorcycles, Toshiba and Sunflame to name a few and currently working as Business lead in one of the leading and most reputed South Asian Media company in Vancouver , Canada . I have been known for cultivating Marketing & Digital transformation as a core marketing function to tap emerging digital trends & disruptive technologies. I have been a thought leader with a keen interest in automation, data analytics, IoT, AI, and a strong advocate of digital transformation. Some of the top industry awards that my organisation has received include :

- Iconic Brand of India by The Economic Times
- Brand of the Decade Award by BARC Asia
- Femina Power Brand 2021 by Femina India"

Describe your journey at Amity University?

"The years between 1998-2000 were the best 2 years of my life. These two years spent at Amity helped to shape my personality and made me corporate ready. Amity is not an institution but an experience in itself . These were the best fun years as well especially working and learning at Corporate Resource Centre (CRC).

While I was at campus, I was guided and mentored by the best, not just faculties but also the best of people. I found a very effective support system in my teachers and friends. They inspired me to excel in every aspect of my life during those days. I was always encouraged to choose my work-life balance independently. This independence was a major contributor to the various awards and recognitions that were bestowed upon me later in my life.

I got my first break from the campus itself. I realize now that it was not just studies, but the overall development which took place at Amity and helped me to climb the corporate ladder. I thank the institution and the founders from the bottom of my heart."
