MESSAGE FROM PATRON

"We are creating centres of thought leadership across the world, where faculty, scientists and brilliant students can explore and expand the frontiers of knowledge."

Dr. Atul Chauhan
Chancellor, Amity University
President,
Ritnand Balved Education Foundation
CEO, AKC Group of Companies

MESSAGE FROM CO-PATRON

"Our endeavour is to nurture holistic world citizens, who are driven by human values and equipped to excel on a global stage."

Dr. Aseem Chauhan
Chancellor, Amity University
Additional President,
Ritnand Balved Education Foundation
CEO, Amity Capital Ventures

MESSAGE FROM EDITOR-IN-CHIEF

My Dear Amitians,

A Warm Welcome to all our Alumni!

Amity is known to produce through professionals, the leaders, who possess an intrinsic characteristic to bring changes in the life of millions through world-class education, behavioural aspects, and the values & ethics imbibed in them during their academic journey at university. Amity has a very strong culture in building and sustaining relationships with students and thus they have a very good connect with the Alma mater.

Alumni are a very important resource of university and at Amity we are proud to have a huge network of over 200,000 successful Alumni well placed both domestically and internationally across various industries. They proved themselves as leaders in diverse fields of endeavour and hold excellent positions in reputed organizations. Amity has embossed its name in almost every part of the world in the form of its Alumni. The uniqueness of Alumni can be seen in every initiative they take, whatever they do, they do it differently with an assurance to obtain preferred outcomes.

Amity makes a conscious effort to reach out to its alumni regularly both in and off-campus through various activities. As an ambassador of the university, each alumnus plays a critical role in taking the university to the next level. Some of the key areas where alumni add value are guest lectures, Alumni Knowledge Sharing Series, Start-Up Mentoring sessions, Industry specific workshops, IQAC Meetings, Placement, Internships, Jury members for various competitions and events, etc. The annual Alumni reunions on campus and through Virtual mode enhance the bonding of Alumni with the alma mater.

Your professional commitments would have forced you to move out in different parts of the country and away from Amity, yet we are going to be near you with our latest ALUMChronicle- The Alumni Newsletter through which we will strive to be in constant touch.

We congratulate the team of the Alumni Relations Office for bringing the ALUMChronicle.

Thank you very much for being the torch bearers of Amity.

Prof. (Dr.) Balvinder Shukla
Vice Chancellor
Professor - Entrepreneurship, Leadership & IT
Amity University Uttar Pradesh
Sr. Vice President, RBEF

MESSAGE FROM EDITOR

Dear Alumni,

Amity University is the largest education provider in India. We are firmly focused on preparing the youth to face the modern-day challenges of today and helping them to be a responsible citizen of the country. Only the youth, imbibed and nurtured with the perfect amalgamation of values and ethics will be the ones who own an ability to lead masses, move forward on the path of success, and leave their footprints for others to follow.

Alumni are one of the most precious possessions of educational universities/institutions. Alumni are the voice and faces, they create footprints not just within the country but across the globe. In real terms, they are the brand ambassadors of the university building recognition brick by brick. Amity takes pride in talking about more than 200,000 successful alumni living in every part of the world, and the university has earned a reputation for excellence and leadership because the alumni have demonstrated leadership qualities, constantly building the goodwill of the brand in the corporate world.

When you graduate from Amity University you are eligible to become a member of the Amity Alumni Association. We request you to join the association to stay connected and informed about various benefits, programmes, events, and activities. The Alumni Association plays a major role in building long-lasting relationships and creating camaraderie amongst a global community. It is the best way to stay connected with your alma mater and re-establish bonding with your batch-mates and the university.

The Amity Alumni Newsletter- ALUMChronicle attempts to congregate Alumni achievements and their involvement in different events and programs to keep them connected to their Alma mater. We are proud to have alumni in all corners of the globe. Our mission is to help you stay connected with Amity even after you graduate and to carry that Amitian spirit with you everywhere.

We want to highlight your successes, love to listen from you, so share your upcoming activities, stories, and achievements with us. We'll include them in the ALUMChronicle. The Alumni Relation's Team is there to provide organizational support and to help you to stay connected with each other and the university.

You may visit Alumni website at www.alumni.amity.edu for registration in Amity Alumni Association and may also contact Alumni Relations Office for future alumni events/programmes and to share your valuable feedback.

Stay in Touch!!

Best Wishes,

Prof. (Dr.) Anupam Narula
Professor-Marketing
Dy. Director (Alumni Relations)

AMITY EDUCATION GROUP

TRANSFORMING THE EDUCATION LANDSCAPE

Amity Education Group over the last 30 years has established 11 universities in 10 Indian States, 16 overseas campuses worldwide and 25 schools in India and across the world which are at the forefront of cutting-edge innovation and teaching methodologies. At Amity, the 175,000 students and thousands of faculty and scientists all have one passion in common - to achieve exceptional things that will make our world a better place. This is the Amity DNA. The Amity has commitment to transform and nurture future leaders.

The world class campuses of Amity, spread over 1000 acres, are in India in New Delhi, Delhi NCR, Mumbai, Kolkata, Lucknow, Jaipur, Patna, Raipur, Ranchi, Gwalior, and Mohali, and globally in London, New York, Singapore, Dubai, Abu Dhabi, Sharjah, San Francisco, Singapore, Amsterdam, Tashkent, and South Africa. Amity also has India's leading chain of schools with 20 top-ranked schools and 5 Preschools in India in New Delhi, Delhi NCR, Mumbai, Lucknow, Mohali, Gwalior and Naya Raipur, and globally in Amsterdam, Abu Dhabi, Dubai, and Sharjah that follow the British, IB and the Indian CBSE curriculum.

Amity's flagship University is ranked among the top 3% universities globally by QS and THE (the world's leading university ranking organisations) and has set a new standard of academic excellence by becoming Asia's only University to achieve US Regional Accreditation and by UK's Quality Assurance Agency for Higher Education (QAA).

- **30** YEARS OF EXCELLENCE IN EDUCATION
- **11** UNIVERSITIES IN 10 INDIAN STATES
- **16** OVERSEAS CAMPUSES WORLDWIDE
- **1,75,000** STUDENTS
- **6,000** FACULTY
- **1,000** ACRES OF CAMPUSES
- **36,000** PLACEMENTS IN THE LAST YEARS
- **2,00,000** STRONG ALUMNI NETWORK

UNIQUE SELLING PROPOSITION (USPs)

THE AMITY UNIVERSITY LOGO

The Amity University Logo is represented in a shield divided into dark blue and golden yellow sections by an upward sweeping line that depicts growth and progress in life, achievable through education.

The shield shape represents the resolute shelter of truth, two contrasting yet adjacent colours connote a blend of modernity with tradition.

The dark blue with contemporary cues of technology, performance and advancement strikes a synergy with the golden yellow radiance of tradition, culture and values.

The flame represents the purity and passion for knowledge, while the upper and lower parts of the flame replicate the arch of 'A' and the bend of 'U' respectively, the two leading alphabets of Amity University.

THE AMITY ALUMNI ASSOCIATION LOGO

The Amity Alumni Association Logo is represented in a amalgamated 3 As. The 3 As depicts Amity Alumni Achievers who have created footprints ofsuccess not just within the country but across the globe bonded together.

The upward and downward triangle represent the masculine and feminine strength, courage and energy to achieve higher echelon, growth and progress in life, achievable through bonding and networking.

When this upward and downward triangle is embedded with a (dot) in centre it connote SHAKTI-POWER, union of masculine and feminine power of Amity Universe.

INNOVATION AND RESEARCH

Amity has an unmatched culture of excellence in education and is committed to science & technology, innovation, and high-end research. This is aptly reflected in its distinguished Faculty carrying out high-end Government funded research in focused areas like Nanotechnology, Biosciences, Thin Film Technology, Space Science, Nuclear Science & Technology, and Solar Energy among others.

Amity University has emerged as one of the top-most "Research & Innovation Driven University" with over 400 research projects funded by National and international funding agencies such as Department of Science & Technology (DST),Council of Scientific and Industrial research (CSIR), Department of Biotechnology (DBT), Indian Council of Medical Research (ICMR), Defence Research & Development Organisation (DRDO), Bill & Melinda Gates Foundation, Leverhulme Trust of UK, Mirtec USA, USAID, Alexander vom Humboldt Foundation Germany. These projects cover a wide spectrum of domains including Biotechnology, Nano Technology, Pharmacy, Engineering, Health Sciences, Humanities and Management. The scientists and researchers have filed over 1500 patents so far, occupying one of the top- most positions in patent filing and about 25,000 publications in high impact factor journals such as Lancet, Nature, Cell, Material Horizon, Physical Review Letters, Royal Society of Chemistry Journals etc.

More than 15 technologies have been transferred to industries in the recent years. Amity has been recognized as the Scientific & Industrial Research Organization (SIRO) by the Government of India. At Amity, over 250 sponsored research projects are under way with leading International bodies like National Science Foundation (USA), Deutsche Forschungsgemeinschaft (Germany), Bill & Melinda Gates Foundation, besides leading Government organizations in India like DST, CSIR, DRDO, ICMR, ICAR, and many others.

Amity has tie-ups with government labs such as the Institute of Minerals and Materials Technology, Indian Institute of Integrative Medicine, Advanced Materials and Processes Research Institute and the Shriram Institute for Industrial Research to name a few. Innovation Ecosystem is created right from the appropriate pedagogy, learning by doing culture and promoting strong research competence at the Doctoral and Masters Level. State of the Art research infrastructures have been created with instruments such as FACS Accuri and FACS sorter, Confocal Microscope, Atomic Absorption Spectrometer, Scanning Electron Microscope, FT-IR, High Performance Liquid Chromatograph, Gas Chromatograph.

To promote research culture, Amity has initiated collaborative research with renowned institutes and organizations including Indian Council of Medical Research, Indian Council of Agricultural Research, University of Nottingham (UK), Colorado State University (USA), York University (Canada), Kent State University (USA), University of New Castle (Australia) and Deakin University (Australia).

Amity envisions promoting scientific temper among students and the faculty members through organizing lecture/orientation series from eminent scientists including Nobel Laureates. Eminent speakers and senior alumni were invited from various spheres of specialization from renowned organizations at International & National levels to lend valuable information from their experiences to Amitians.

INTERNATIONALIZATION

Amity University has tie-ups with over 200 International Universities, laboratories, and research centers across the world, including the USA, UK, France, Australia, New Zealand, Russia, China, Spain, Switzerland, Germany, Canada, etc. The students and faculty engage very actively with the various partners through different modes that include Study Abroad, Semester Exchange, Twinning Programs, Internship Abroad, Certificate Programs, and Progression pathways to some of the best Universities of the world that include Columbia University, Johns Hopkins, UC Berkeley, University of Bristol, University of Birmingham, Queen Mary University of London, Monash University Australia and many more.

More than 1000+ top international personalities including Vice Chancellors, CEOs of top companies, Professors of Ivy Leagues, Russel Group of Universities & other reputed Universities visit Amity every year on Campus or join online for giving lectures and participating in thought provoking panel discussions, workshops & research projects. Due to robust international outreach, Amity was the only university to secure 7 UKERI funded projects with leading universities of UK (University of Bristol, Ulster University, University of Northampton, University of Surrey, Sheffield University, University of Kent, and University of Winchester). Additionally, the researchers and scientists collaborated with International Universities like MSU, Ohio and some leading German Universities for quality joint research programs. 90+ Presidents/Vice Chancellors from various Foreign Universities are a part of the Amity International Advisory Board to help mentor students & faculty while strengthening the research & curriculum development activities. Amity has also established strong linkages with various international associations like CII, (UK), CII (Germany) and IAICC (Indo-US) to help Amity students get good and meaningful International Internships & placements.

The University has a very strong & active International Affairs Department that is committed to adopt, innovate & nurture global best practices that have been instrumental in making Amity the front runner in the area of international activities & initiatives.

ALUMNI SPEAK

INTERVIEWS/ARTICLES/ WRITE-UPS

Name: Ms. Vaishali Goel

Course: MBA (Marketing & HR), Class of 2013

Institution: Amity Business School (ABS), Noida

Designation and Organisation: Managing Director DPS HRIT Campus, Ghaziabad

"Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world, and all there ever will be to know and understand. "- Albert Einstein

After pursuing MBA with dual specialization in – Human Relations & Marketing from Amity Business School (ABS), Amity University, Noida, my entire focus was on gaining corporate expertise. With a vision to explore and transform to achieve the pinnacle I started working diligently. In a span of two years, I was polished and ready to take on the challenges and begin my new venture. My marriage proved to be a boon for me as I had entered in a prestigious family where I got the push and zeal to achieve my goal.

Post my marriage, my qualifications and skills were utilized in my family business, where in we nurture the future of our nation. As an Edupreneur I joined Delhi Public School HRIT Campus, Ghaziabad, as the Managing Director. Though the whole responsibility of building great personalities and shaping the future is on our shoulders, I aim to make education a fun filled, enjoyable, learning, and growing experience on the solid foundation of values. According to me it is important to create an environment where students eagerly look forward to coming to school. I want them to have fond memories of their time spent in school, long after they have left the portals of school. For me vision is not enough, it must be combined with venture as it is enough to stare up the steps rather, we must step up the stairs.

I feel immensely proud to share that I have been awarded with Young Entrepreneur award and Women Empowerment award by Ms. Swati Singh (Minister of State, UP). I would like to motivate and inspire my generation and with my experience guide them to a better path.

Name: Mr. Charchit Agarwal

Course: BBA (Finance & Accounting), Class of 2011

Institution: Amity School of Business (ASB), Noida

Designation and Organisation: Director at Mohani Global Pvt. Ltd.

Director at Eduspace Pvt. Ltd.

When I met President Ram Nath Kovind....

'Winners never quit and quitters never win.'

Starting a company is a riveting roller coaster of emotions with its highs and lows but one thing that helps me go through these ups and downs is to connect with some great minds. After completing my BBA (Finance & Accounting) from Amity School of Business (ABS), Noida in the year 2011, I went to do Masters in Global Business Management from Northumbria University, New Castle (UK) in year 2011-12. After gaining some corporate experience I started looking after my family business of Mohani Tea (a 30 years old venture). In the year 2016, as entrepreneur came up with Ed tech company Proctur that is a pioneer in digitization of educational institutes and has more than 1 million students.

In 2018, I got an opportunity to meet President Shri Ram Nath Kovind and we had a thoughtful discussion on his recent visit to the Siachen Base Camp and his interaction with soldiers posted there. It was indeed a proud moment for me to share the growth of the tea industry, as tea is an integral part of Indians. We discussed on digitalization processes through our Ed Tech Company- Proctur on how it is a boon for coaching institutes & tutors across India. It was a golden opportunity for my partner and me to receive blessings from our hon'ble President Mr. Ram Nath Govind.

For me the price of success is handwork, dedication, and determination whether I win or lose, I have the satisfaction that I have applied the best of my abilities to the task at hand.

Name: Ms. Meha Jain

Course: B. Tech (Mechanical Engineering), Class of 2018

Institution: Amity School of Engineering and Technology (ASET), Noida

Designation & Organisation: Design Engineer, Restistoflex

We witnessed a rising career graph of Ms. Meha Jain. She is leading a team of design engineers at Restistoflex, a company focused on offering complete engineering services which includes diagnostic investigation, technical analysis, System design, supervision of Installation, performance evaluation & post Monitoring.

Q. Please provide your brief introduction, personal, and professional.

A. I was born and brought up in Delhi. I have been the first girl in my family to practice engineering discipline. I had completed my bachelor's in Mechanical Engineering, Amity University in 2018 and have been working at Resistoflex ever since 2018. During my Bachelors, I have extensively worked on research projects in Thermal - Fluid background under the guidance of my HOD and even presented my research work at IIT Delhi exhibitions. I was awarded twice for my final year project, for the best working model in my department and most socially relevant project in the entire institution. My project was focused on design of a mobility device for rehabilitation of stiff elbow joints using Shape Memory Alloys. As a team, I demonstrated a perfectly working model of the same which was produced in less than Rs. 4000. The price of the device was so minimal which make it accessible to many people suffering from stiffness after an accident or age-related issues with minimum expenditure. Apart from being an engineer, I also make handcrafted items and exhibit them during festive occasions.

Q. Tell us about your journey after you left Amity, your professional accomplishments.

A. I joined Resistoflex as an Application Engineer Trainee post completion of my degree. In the last 30 months, I have learned what it is to be a practicing engineer rather than a theoretical one. My first project was to model, simulate and validate a new development project of Anti-Seismic Flexible Piping System used in Buildings. I designed the entire piping system single handed and have been supplying our indigenous invention to many commercial buildings all over India such as the IREO ITES/SEZ Project in Gurugram. The design of the test setup for validation of these pipe joints was also done in a team, followed by actual testing on a full-scale. I have been handling the design requirements of vibration and shock isolation mounts used in Indian Navy Equipment, Naval Warships and the Indian Space Research Organisation (ISRO). These design calculations are done by hand and using an in-house design software catered specific to the vibration and shock mounts used in Resistoflex. As a designer, I am also involved in Rendering of final manufacturing drawings on CAD/CAM Software for machining of the component. The software used for all design capabilities are Solidworks, ANSYS, SolidCAM and a few in-house developed software such as EJMA for pipe expansion joints and vibration and shock mounts design.

Other than this, from a trainee level, I have promoted to the ranks of being a Design and FEA Specialist. I manage the design data, design requirements from customers and the entire design team of 8 people.

Q. Please elaborate on some exciting projects that you are handling at Resistoflex now.

A. Currently I am working on the design and modelling of Secondary Air Suspension Systems. used in Railways. Resistoflex has been manufacturing and supplying to the Indian Railways such as the ICF Coaches, LHB Coaches and even the newly launched Vande Bharat Express since 1995. Our design requirements have been fulfilled by our collaborator - Contitech Germany since the beginning. We have ventured into the design of these Air Springs on our own as well now as it is the requirement of the Indian Government under the “Make in India” Initiative. The sole purpose of these suspension systems is for human safety during travelling in railways and also to make a ride as smooth and comfortable as possible. As the only FEA Specialist in the organisation, I am single handed working on the design of air springs used in Indian Railway Coaches. Apart from this project, I am also working on a New Development project of Structural Bearings used in buildings. These structural bearings are designed for earthquake protection and safety to human life, used in conjunction with the Anti-seismic Flexible Piping system. These bearings have the capability to ensure the safety of people inside the building during a seismic event and also to ensure continuous functioning of the building with all its systems. Seismic protection for buildings and Bridges is new in India, it is very necessary, as most cities, including Delhi come in the high seismic zone. With a team of IIT Professors and a few Industrial Partners who understand the need of future planning from earthquake protection, we are indigenously designing our own structural bearings for buildings and bridges. As an engineer, I am proud to be working on socially relevant projects.

Q. Any message that you would like to give to budding Engineers.

A. Follow your dreams and heart, grab every opportunity that you get during your initial years in the industry. But the most important is to remain open minded and willing to not only learn new things which may not be your area of expertise, but also to give all your knowledge selflessly to those in need. The more exposure you get to happenings around you, the better you could visualize and serve the bigger purpose. Finally, share your ideas with your peers, working alone is not a smart choice.

A little hope in me still awaits the day

(COVID-19)

An year ago, we have enjoyed in a lot many ways,
But no one imagined such darkest days!

Arrival of pandemic was not less than huge storMs.,
Sufferers were those who could not adhere to norMs.!

Those beautiful eyes were flooded with tears,
A huge damage that can't be recovered for years!

Sadness has replaced the beautiful smile,
We really don't know how long this exile will be!

People are in pain all around,
Who will come to heal their wound?

All I hear is everyone's painful heart screaming,
Is it the reality or am I still dreaming?

Every day I witness thousands of negative post,
For the first time world has suffered the most!

All we can do is pray and pray,
A little hope in me still awaits the day!

This is the time to look up for positivity,
Try diverting your mind unleashing your creativity!

I know we are all in a state of complete burnout,
A little hope in me whispers, virus would be knocked out!

Need not worry, just pray and hope,
Peace and happiness would Re-enter the globe.

The Ostrich that Flew

All of it goes back to that day,
When I barely had anything to say,
It was a good day, happy and bright,
But something suddenly caught my sight,
And yes, I too wanted that flight.
I saw them fly, with wings open wide,
Their colors blended in the sky, seeing which my heart replied,
"Let's go up above, let's explore the sky,
Hey! Listen, I too wanna fly!"
It gave me chills, yet I wanted that thrill,
It was the desire, I didn't want to kill.

I knew I can't cause I was different,
But that echo of my heart was consistent.
I listened to my heart and went like lightning,
To be honest, it was a bit frightening,
But I flew! Oh, I finally flew!
To those who said I can't, I proved it untrue!

‘शीर्षक – माँ तू कितनी प्यारी है’
365 दिन काम करती है वो,
बिना छुट्टी के अपनी सर्विस देती है वो,
सभी दर्द खुद में समेटना आदत है उसकी,
थकान से भी कभी उफ़ ना करती है वो...।
बचपन में मैं जब रोती थी, एक आंचल सा आता था ।
प्यार भरी थपकी देकर सर को सहलाता था ।
नन्हें–नन्हें कदम मेरे जब भी डगमगाते थे,
पहले से ही हाथ तेरे मां सामने आ जाते थे ।
गिर–गिर कर फिर से चलना तूने मुझे सिखाया है,
मुश्किलों से लड़ने का हौसला तूने ही मुझ में जगाया है ।
मेरे हंसने से खिलखिलाती है तू,
मैं रो जाऊं तो डर जाती है तू।
मेरी माँ तू कितनी प्यारी है,
इस पूरे जहां में तू सबसे न्यारी हैद्य
कितने किरदार तुम निभाती हो,
कभी बेटी, कभी बीवी, तो कभी माँ तुम बन जाती हो।
हां माँ, मम्मा या मॉम इन्हें सब कहते हैं,
उस भगवान के इस प्यारे से करिश्मे को,
हम माँ ही तो कहते हैं.... माँ ही तो कहते हैंद्य

''समय है बड़ा कीमती''

A Self composed Poem: "समय"

ये जल्द ही बीत जाएगा ।
यूँ ही बैठे रहें तो
समय हाथ से निकल जाएगा ।
समय रेत का दरिया है
जो मुट्ठी से फिसल जाएगा ।
हाथ मलते रह जाएँगे
जो इसे समझ न पाएगा ।
राहें सूनी रह जाएँगी
तरक्की के रास्ते बंद पड़े रह जाएँगे,
ज़िन्दगी के पथ की गली और गलियारों से
खुशियाँ दूर निकल जाएँगी ।
जो समय को समझ पाएगा
वह हर पल में छिपी खुशियाँ जी भरकर दिन बितायेगा ।
समय कभी ठहरता नहीं,
यह बड़ा बलवान है ।
एक बार समय बीत जाएगा
फिर लौट के वापस नहीं आएगा ।

TESTIMONIALS

Name: Mr. Shashank Sharma

Course: B. Tech (Mechanical & Automation Engineering), Class of 2009

Institution: Amity School of Engineering & Technology (ASET), Noida

Designation & Organisation: Analyst Engineer, Jaguar Land Rover, Warwick, England, (UK).

Amity University has nurtured and helped in giving a solid shape to my ideas. At Amity University, I had the chance to co-ordinate and participate in technical events and conferences of international repute that were organized and competed with great enthusiasm. Above all, the faculty supports students in every task and pushes every student for the best result. I had the opportunity to spend four crucial years of my life with such talented students who are going places and performing exceedingly well in their fields. I owe to my mentors and professors for my knowledge and performance. I thank the entire family of Amity University for playing an instrumental part in shaping my career.

Name: Ms. Ankur Vats

Course: B. Tech (Automation Engineering), Class of 2012

Institution: Amity Institute of Aerospace engineering (AIAE), Noida

Joining Amity Aerospace department has been a life changing experience for me. It improved my outlook towards life and motivated me to pursue excellence. I am grateful to my teachers, seniors, and fellow classmates with whom I spent the best 4 years of my life. Facilities' available at AIAE helped me to pursue my dream subject with ease.

Name: Mr. Indraneel Dutta

Course: B.Tech (Mechanical & Automation Engineering), Class of 2014

Institution: Amity School of Engineering & Technology (ASET), Noida

Designation & Organisation: Senior Manager, Tata Motors

My stay with Amity University was very fruitful. Amity University had provided me the platform to hone and nurture different facts of my personality that have made me a more competitive and balanced individual. The rigorous curriculum has lent me sound technical foundation in manufacturing science and handling manufacturing projects at Bosch. I would like to credit much of my success to the distinguished faculty members, their constant encouragement and close participation in my academic development. Further, the courses on Lean Management, Behavioural Science and Foreign Language have helped me develop an invaluable dimension to my thought process. I thank the entire family of Amity university for playing an instrumental part in shaping my career.

Course: B.Sc (H) (Marine Science), Class of 2015

Institution: Amity Institute of Marine Science and Technology (AIMST)

Designation & Organisation: Medical Administrative / Clinical Assistant with Dr Kevin Lee's Medical Corporation, Canada

My experience in Amity University was wonderful. Three years of utter bliss under renowned faculty members have guided me throughout my career, I am glad that I was part of AIMST. I would also like to thank all the faculty members for their utmost support and help throughout these years. Amity University nurtures its students to grow and succeed in Life, I am proud to be a part of it. I enjoyed my studies thoroughly in Amity University, learning a lot from the responsibilities given to me.

Name: Mr. Dinesh Chandra Morla

Course: B.Sc. (H) Marine Science, Class of 2015

Institution: Amity Institute of Marine Science and Technology (AIMST)

Designation & Organisation: Vice Chairman in National Engg Commission, Administration with Telangana Govt., Andhra Pradesh.

I liked the education system and how it is maintained at AIMST. Even the course I chose being Marine Science which had lot the explore made me inspired, Altogether I can say that AIMST transformed me into an improved individual and Shared best memories of my life.

Name: Mr. Shibu Daniel Rufus Kitto

Course: B.Sc. (H) Marine Science, Class of 2016

Institution: Amity Institute of Marine Science and Technology (AIMST)

Designation & Organisation: Business Aquaculture at Aqua Bridge Fisheries and Aquaculture Consultancy Dubai – UAE.

The Amity Marine science program at Amity University, a highly curated, industry-specific, discipline-focused tutelage matches our career goals, ambitions, and targeted field of profession. A conscientious channeling of knowledge on biological economies into mission-critical system fetched me an Aquaculture Masters entry into Ghent University. Belgium.

Name: Mr. Archit Singh

Course: M. Com (H), Class of 2016

Institution: Amity college of Commerce and Finance (ACCF)

Designation & Organisation: Finance Associate at Artech Infosystem Pvt Ltd

During my tenure with Amity University, I came across the best faculty in the field of commerce, Finance and Financial Analysis, they guided me in every circumstances. This course has developed the overall personality of mine by understanding value education and developing my interest in the subjects with insight knowledge that helped me to achieve my goals in this competitive era. And I will also thank ACCF placement cell team who helped at par with their excellence to provide the best career opportunity. At last, will like to thank AMITY for developing my overall personality.

Name: Mr. Kamanasish

Course: M. Sc. (Applied Physics), Cass of 2016

Institution: Amity Institute of Applied Sciences (AIAS)

My two years of experience at Amity University provides me an opportunity to learn from some great research minds. I got a lot of support and motivation throughout from my professors. Very supportive faculty and always open for constructive suggestions and changes. I am exceptionally convinced that the ease at which I could implement few changes (e.g. signing an MOU with RIKEN, Japan for my scientific tour) would never have been possible so easily in even the top-notch universities in the country.

Name: Ms. Radhika Arora

Course: M. Com (H), Class of 2016

Institution: Amity college of Commerce and Finance (ACCF)

Designation & Organisation: Deloitte Huskins and Sells

I had one of my best experiences of my life in ACCF. The faculty was very supportive and helped to brush my skills. A lot of opportunities were provided to prepare us well for the corporate world. I am indebted to my teachers for this achievement.

Name: Ms. Shruti Ravi

Course: M. Com (H), Class of 2017

Institution: Amity college of Commerce and Finance (ACCF)

Designation & Organisation: Capital IQ Inc Ms

I am immensely grateful to the ACCF's placement team for providing me with the opportunity to sit for the premier organisation as SandP Global market intelligence and which I ultimately become a part of. Thank You Amity.

Name: Ms. Barkha Tyagi

Course: M.Sc. (Applied Physics), Class of 2017

Institution: Amity Institute of Applied Sciences (AIAS)

I did my Ph.D. from Chonbuk National University, South Korea. My experience at Amity Institute of Applied Science, Amity University, Noida has been a valuable addition for my academic and well as personal growth. The faculty in AIAS have always guided and supported me towards achieving my goal. AIAS also gave me the opportunity to have the extraordinary experience of pursuing my internship at Mitsubishi Electric Corp., Japan.

Name: Ms. Tulipa Sharma

Course: M.Sc. (Applied Physics), Class of 2017

Institution: Amity Institute of Applied Sciences (AIAS)

Designation & Organisation: Doctorate Fellow, at Takahashi Lab, Kwansei Gakuin University, Kobe-Sanda, Japan

As a student of Amity University, I got the opportunity to visit Japan (with other nine students) in a SAKURA exchange program in science organized by Amity University and Kwansei Gakuin University which was funded by the Japan Government. I got the opportunity to visit different labs at different universities namely Kwansei Gakuin University, Kobe University, and Osaka University. Later I applied for Ph.D. in Japan and got selected for the most prestigious scholarship of Japan known as MEXT. I have always thought that taking admission in Amity University was a great decision in my life. Wherever I stand right now, it is because of Amity. The unparalleled support of the professors at every step has helped me with an overall development at a very high level. Amity University provides the students a chance of doing a thesis for both B.Sc. and M.Sc. degrees. This opens new dimensions in the students' careers. I had such a great prospect in my career because of all the support and opportunities that I ended up getting a PhD.

Name: Mr. Parantap T Vaidya

Course: B.Sc. (H) Marine Science, Class of 2017

Institution: Amity Institute of Marine Science and Technology (AIMST)

Designation & Organisation: Senior Fraud Analyst and Account Protection Specialist in American Express Horizon Tower, Gurgaon.

"My experience at AIMST was just phenomenal and eye-opening. It's the best place to groom a curious mind in search of the vast knowledge and treasures the sea holds, and the teachers have been nothing but an inspiration for us to always fair forward and look to expand our horizons".

Ms. Aakriti Mathur

Course: B B.Tech. (IT), Class of 2018

Institution: Amity School of Engineering & Technology (ASET), Noida

Designation & Organisation: Associate System Engineer, Cisco

I would describe my journey at Amity as a captivating one just like every fresher would want their college life to be like. Be it any sphere of learning i.e., academics or extracurricular, I was provided with the endless opportunities which helped me in my overall personality development. Amity's environment helps you grow as an individual and affect your overall personality. I would recommend you all to participate in various activities be it academic or curriculum. Most importantly seek for help whenever you need it don't hesitate, be open to learn and make mistakes this will help you to grow. I had the privilege of having faculty guide for the NTCC project and there was so much to learn be it a technology or a creative way to implement an idea. Our batch despite of covid was offered with immense amount of placement opportunities and luckily, I had 4 offers in hand from top MNCs out of which I went forward with Cisco as an Associate System Engineer. I am genuinely thankful to Amity University, and everyone associated with it because what I am today, Amity has a very major role to play in it.

Name: Ms. Sejal Kumar

Course: B.Sc. (H) Marine Science, Class of 2019

Institution: Amity Institute of Marine Science and Technology (AIMST)

I am pursuing M.Sc. in Marine Science from Goa University "It's my pleasure to share my experience at Amity Institute of Marine Science and Technology. "Personally, I consider my time in university as my most valuable experience. The things I've learnt at AIMST has given me a chance to sharpen my skills and enhance my knowledge in my field of choice. Academic structure, inter and intra university conferences, departmental activities and trips have all consolidated my experience and enriched my life with beautiful and irreplaceable memories. Thanks to all the respected faculty members associated with Amity University for sharing their pearls of wisdom with us, which indeed has made our journey with Amity one of a kind".

Name: Ms. Sirjan Chhatwal

Course: B.Sc. (H) Neuroscience, Class of 2019

Institution: Amity Institute of Neuropsychology and Neurosciences (AINN), Noida

I pursued Bachelor of Science (Honors) Neurosciences in the institute of neuropsychology and neurosciences (AINN) at Amity University. The course structure is well-balanced and provides diverse opportunities and broad perspectives to the basic knowledge of neurosciences. It is very rare that you come across research professors like the faculty at AINN who are engaging, crystal clear in terms of their teaching methodology. The faculty ensures that research discussions form the core of conversations and emphasis is given on developing novel ideas to problem solutions. I have been exposed to a very open and friendly atmosphere of discussing scientific questions which has been a huge advantage

Name: Mr. Prabhat Kumar

Course: B.Sc. (H) Neuroscience, Class of 2019

Institution: Amity Institute of Neuropsychology and Neurosciences (AINN), Noida

Amity University is a very welcoming place and from the first day, I felt at home here. I have learned and experienced so many new things in such a short period of time. I have made many new friends from many different backgrounds. There are so many students from different parts of our country on my floor in residence and that has allowed me an insight into their cultures. My classes were great, and I enjoyed every one of them, especially Neuroanatomy and Neurophysiology. As for extracurricular activities, I was part of sports team, and was leading the department Sports team in Sangathan 2018. Another thing I really enjoyed on campus was going to the gym and Swimming pool. Life at Amity was a great experience.

Name: Ms. Saloni Priya

Course: B.Sc. (H) Neuroscience, Class of 2019

Institution: Amity Institute of Neuropsychology and Neurosciences (AINN)

Amity has been a wonderful experience. I have learnt a lot, both academically and personally. All faculty members, mentors and everyone in Amity family have been a great help and strong support. Success is not only defined by winning awards but the efforts, hardwork and perseverance that are put to achieve success. This is what Amity students get to learn and imbibe on their voyage to success. Amity is epitome of learning where students fulfill their dreams, overcome fears and weaknesses to step into the world as smart and confident professionals. This place has immensely added to my personal and I will always cherish the memories I shared with Amity University.

Name: Ms. Karamjeet Kaur Sarna

Course: B.Sc. (H) Neuroscience, Class of 2019

Institution: Amity Institute of Neuropsychology and Neurosciences (AINN)

My deep fascination for brain had me carve my career in the field of Neurosciences. Amity University offered me the opportunity of enrolling in an honors bachelor's degree in Neuroscience for which I'm grateful and proud. The reason I opted to study here primarily was because it was a pioneering school offering a blend of multidisciplinary sciences to understand the nervous system. Our institute harbors exceptional experts in several divisions of Neuroscience, who helped me implement and foster my scientific skills. Challenging yet enriching experiences helped shaped me into a more productive and confident individual, willing to follow my goals – become a neuroscientist. Not just academically, the course equipped us with some industry exposure during vacations, that added great value to our understanding of the subject. Furthermore, I have enjoyed access to a range of courses and resources created to promote holistic development of the students. Multi-cultural and dynamic environment provides a great social life, I have made some incredible memory and friends during my degree. I'm immensely happy and honored to be a part of Amity University.

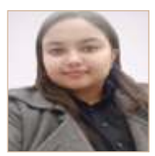

Name: Mr. Raunaq D Shah

Course: MTTM, Class of 2019

Institution: Amity Institute of Travel and Tourism (AITT)

Home is the word, that closest describes my alma mater. My family of teachers and friends is what made my two years here, one of my most treasured and productive phases of my so far lived life and there is a longing to come back. One of the best qualities i observed was of inclusion, and acceptance of whoever you are and whatever you want to be or do in your professional endeavour.A place where you are encouraged to follow your passion, be the true you, break the chains of convention and yet uphold the wealth of our culture and traditions, and make the world see the magic of your originality.The encouragement and motivation received from faculty was immense. They are as approachable as your own family. The value of being independant and a self starter, is instilled down to our very being, the need for innovation being our motto and creed. Personally, i grew from being an introvert, dormant inactive self to someone very active, included and in charge of many responsibilities ever thought i could do justice to. The direct credit for this goes to team of very able family of experienced and knowledgable teachers. Thank you, Amity University, for everythimg.

Name: Ms. Bhavya Rastogi

Course: B.Sc. (H) Neuroscience, Class of 2020

Institution: Amity Institute of Neuropsychology and Neurosciences (AINN)

It has been a truly invaluable learning experience for me. I want you to know that I have learnt so much from my faculty members and my classmates. Our faculty members gave constructive input and guidance throughout each lesson of the course. My friends helped me to understand where my strengths and weaker aspects lie. I am thankful for getting the opportunity to work as President for Student Welfare Committee of our department as being in this department gave me tons of memories to cherish and infinite knowledge to expand and share. Lastly, I would like to thank my friends and all the faculty members for making this course and the journey of three years so enjoyable at Amity.

Name: Ms. Prasuna Shanmukha Priya Lanka

Course: B.Sc. (H) Neuroscience , Class of 2020

Institution: Amity Institute of Neuropsychology and Neurosciences (AINN)

The name Amity University, always bring a smile to my face. It is a marvellous blend of educational, cultural, and knowledge diversity. The faculty of AINN has helped me groom into a veracious individual through their encouragement and support to participate in the various extraordinary conferences and extracurricular activities in and around the college. Amity University gave me opportunity to enhance my leadership and management skills through my CR position. In my time in Amity, my peers, guides and the university were a gigantic supportive pillar against the various challenges experienced whilst managing the studies and the CRship. The memories and bonds made will always be cherished.

Name: Ms. Areeba Aziz

Course: B.Sc. (H) Neuroscience, Class of 2020

Institution: Amity Institute of Neuropsychology and Neurosciences (AINN)

The programmes offered by Amity Institute of Neuropsychology and Neurosciences (AINN) are extensively Neuroscience-oriented and are very stimulating. Courses adhere with the syllabi; course goals are clear and achieved to a significant extent. The faculty members are interactive and supportive. Regular Mentor-Mentee meetings confirm this and the students, can discuss their grievances and ideas. Faculty members are enthusiastic about teaching and are interested in the students' academic progress. The Institute demonstrated relatively good academic adaptation to the COVID-19 pandemic. Classes and mentor-mentee meetings were routinely on MS. TEAMS platform during COVID time.

Name: Ms. Anisha Bhola,

Course: B.Sc. (H) Neuroscience, Class of2020

Institution: Amity Institute of Neuropsychology and Neurosciences (AINN)

My three years in the BSc (H) Neurosciences program at Amity University were among the best years of my life. Everyone at Amity helped me grow to a person I am today. There was encouragement coming from all sides. All my mentors and peers were very supportive and positive. I will always miss time spent in Amity and I will always cherish my memories I made at Amity University.

Name: Mr. Prateek Tanwar

Course: B.Tech. (ME), Class of 2020

Institution: Amity School of Engineering and Technology (ASET), Noida

I am working at Escorts Limited. It has been a great experience while studing at Department of Mechanical Engineering, Amity University Noida. It has provided me with enormous opportunities and has a very good approach towards the academics as well as the faculty members have been very helpful during my entire course. In Amity, I have also got various opportunities of placements as the University is approached by various multinational core companies which give a great chance to the students to get growth in their respective fields and one of those companies is Escorts limited with which I have got the golden opportunity to work. The students also get great exposure towards research oriented projects as faculties have a highly research oriented approach and it has many patents as well which clearly reflects the research background and the icing on the cake is the extra-curricular activities which can be done in Amity University as there are many clubs for different activities. Being a part of Amity University, Noida it has been great experience where I gained a lot of knowledge and exposure and also got the opportunities to work on various research-based projects. It has been a great pleasure to be an 'AMITIAN'.

Name: Mohd. Yazdani Amin

Course: B.Tech. (ME), Class of 2020

Institution: Amity School of Engineering and Technology (ASET), Noida

I am working at Accenture. The Academics at Amity University is an overall package of building the brightest students irrespective of the diverse discipline in the courses. The Extra-curricular activities help in enhancing the individual by going beyond studies and exploring the unseen talent with tremendously engaging activities. The overall support obtained from faculty members with explaining each concept thoroughly is unparalleled. The Amity placements provide the best opportunities in the leading MNCs with a very hefty package for freshers. The projects are helpful in the application of theory provided with deep understanding of the domain. The research atmosphere is tremendously engaging for exploring the vast knowledge in the most significant extents. The infrastructure is superior in terms. of world class facilities with well-equipped labs and brilliant staff.

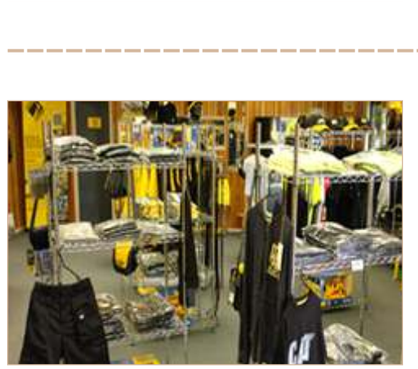

EXCITING OPPORTUNITY FOR ALUMNI

BENEFITS AND OFFERINGS

Hire Talented Professionals

Alumni have an opportunity to hire bright and talented professionals of multi-disciplinary areas having values and Ethics for internships and placements from Amity.

Amity Merchandise

Amity Alumni can also purchase Amity merchandise and memorabilia online, at a special privilege price. Wear the colour of your alma mater or gift your loved one's symbols of your great education and continue this tradition of excellence.

Educate Your Children

Make your children a part of Amity fraternity. Alumni are welcome to apply for children's admission on all area/ classes/ levels of education i.e from pre – nursery to Ph. D.

Counselling Services

Alumni can avail the services of expert counselling psychologists at Amity to enhance their overall emotional, interpersonal, and intellectual well-being for professional and personal excellence.

Mentoring for Entrepreneurs

Alumni Entrepreneurs can get support and resources to develop their business idea into a mature business plan, which can be successfully executed with the support of various mechanisms available within Amity Universe.

Research Collaborations

Alumni are welcome to integrate with Amity universe for research and innovation and generate ideas in the thrust areas that serves and helps to solve the world's greatest challenges.

Incubate Start-Ups

Alumni are encouraged to incubate enterprises which have innovative products and services with groundbreaking technologies from ideas generation to pre-incubation, incubation to successful Start-ups and Entrepreneurial Ventures.
